DCI/DDCI Talking Points

NFIB SESSION ON OBJECTIVITY AND INTEGRITY

Need to all work to continue to strike a balance

- Policy relevance vs. policy prescription
- Policy responsiveness vs. intelligence responsibility

Look to us to do our part

- NIO seek policy inputs on questions, not answers
- NIO seek your input at every step through your representative
- NIO seek to produce best estimate possible using judgment
- NIO seek to reflect full range of substantive views
- We will do same with you at NFIB

Will look to you to assist with drafters

- Continue to provide high quality
- Release from other duties
- Encourage a community perspective

Will look to you to encourage your representatives

- To seek your inputs to topics, TORs, drafts to NIOs
- To provide these to NIOs on timely basis
- To participate fully, actively, and authoritatively in coordination
- To work for meaningful consensus
- To take advantage of right to responsibly dissent

Will look to you to stay involved throughout process

- Through insulating your representative from policy pressure
- Through having your representative keep you informed
- Through timely review of material he brings to you
- Through your active voice at NFIB

Especially encourage

- Continued expression of any concerns you may have
- Bring to NIO, C/NIC, DCI/DDCI, or to NFIB as a whole

Appreciate the frank input you've already provided in writing

- Look forward to your further comment this afternoon
- Will consider in response to NSC and in guideline review
